

Talkeetna Lakes Park Trail System

Date: June, 2016 Data Sources: MSB, GINA, USGS

TALKEETNA LAKES PARK

Parking Fee

\$5/day \$40/annual pass

TALKEETNA LAKES PARK

AT A GLANCE

TRAILHEAD

Comsat Road, just off Talkeetna Spur Road

USE

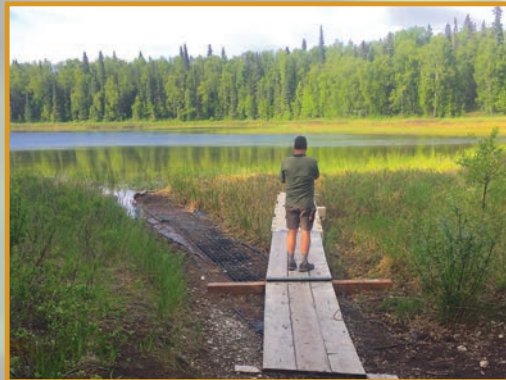

Water and trail fun, winter & summer

DISTANCE

8 miles

LEVEL

Easy to Moderate

Patty Sullivan, MSB

HOW TO GET THERE

From the Talkeetna Spur Road turn east on Comsat Road, take the first right into the main parking lot. A wooden sign marks the entrance to the park.

TAKE NOTE

Dogs must be on a leash. Bring your bug spray during thick mosquito season. Wear a life jacket. Alaska lakes are cold and can cause hypothermia.

DESCRIPTION

In April 2016, some 50 to 100 visitors per day enjoyed the park. Talkeetna Lakes Park is the only Matanuska-Sustina Borough park with recreation opportunities integrated between trails and water. The park encompasses 1,189 acres including four lakes, X, Y, Z and Tigger. Canoeers or kayakers can travel the two-mile chain of lakes by carrying their crafts along the connecting portage trails. Lush forests of spruce, cottonwood and birch provide a quiet setting for hiking, canoeing, fishing, and mountain biking on a single track trail in the summer, and snowshoeing and cross-country skiing on 20-foot wide groomed trails in the winter. Two custom, half-log benches along the trail allow time to reflect.

The hiking trail around X Lake is 3.25 miles. In all, eight miles of trails let you take in the richness of the woods. Loons call on the lake. Beavers, foxes, bears, and moose are native. In spring, delicate roses, fiddleheads, and columbine unfold.
